

name: _____

period: _____

id: _____

Answer the questions to the best of your **current** knowledge

1. Which particle has a negative charge?

- ☐ Proton
- ☐ Neutron
- ☐ Electron
- ☐ All of the above

2. Which particle has a neutral charge(or does not have a charge)?

- ☐ Proton
- ☐ Neutron
- ☐ Electron
- ☐ None of the above

3. (2 points) Neutrons are positively charged particles found in the nucleus of an atom.

- ☐ True
- ☐ False

4. Draw a picture of what you think an atom looks like. Be sure to include: protons, electrons, neutrons and nucleus. Be sure to label each.
